ABOUT THE WA
GLOBAL NETWORK**

ABOUT WA GLOBAL NETWORK EVENTS

The Global Network offers three types of opportunities for its members. Our annual in-person International Student Program Intensives (ISPI) is an exciting opportunity to meet and build relationships with key personnel (i.e., college counselors, teachers, support staff, and administrators) from around 45 top Christian schools in America. We invite you to become an active participant at ISPI as we gather to learn and share best practices, grow from inspirational speakers, network with colleagues, and become better equipped to serve international students in their schools.

The second type of opportunity we offer are Virtual Roundtables throughout the school year to address pertinent topics related to international programs and to meet in breakout groups to share ideas, network and offer encouragement.

The third opportunity we offer is access to our Shared Resource Library as well as a collaborative email group.
